

Statement of Interest

Wagner Figueiró França Junior – Educator and Multilingual Learning Designer

“Education is not just a path to knowledge, but a bridge to dignity, inclusion, and hope.”

My name is **Wagner Figueiró França Junior**, and I am a Brazilian language educator with more than two decades of experience in teaching English, Spanish, and Portuguese to learners of all ages and backgrounds. I am writing to express my sincere interest in joining an institution or educational program in **Canada** where I can contribute my knowledge, creativity, and deep commitment to inclusive education, while also beginning a new chapter of my life rooted in dignity, belonging, and professional purpose.

Throughout my career, I have embraced education not only as a job, but as a form of healing and empowerment. I design my lessons with sensitivity and innovation, combining **multilingual instruction, visual storytelling, and emotional connection** to foster safe learning environments. My recent work includes developing **bilingual and multicultural content**, leading inclusive learning projects, and supporting marginalized students — particularly those navigating identity, trauma, or displacement.

As a member of the **LGBTQIA+ community**, I understand the urgent need for educators who bring empathy, courage, and representation into classrooms. I have taught under-resourced communities, mentored students with learning difficulties, and offered free classes to those who could not otherwise access quality education. These experiences have only strengthened my belief in education as a tool for transformation.

Today, I am seeking an opportunity to **relocate to Canada** — not as an escape, but as a rebirth. I am looking for an environment that values diversity and offers not only work, but also **safety, stability, and space to contribute fully as an educator and a human being**.

I am particularly interested in:

- **Teaching positions in ESL, FSL, Portuguese language, or multicultural education.**
- **Programs that support international teachers through relocation, sponsorship, or integration.**
- **Community-based education initiatives that center inclusion, bilingualism, and intercultural learning.**

I bring to the table not only **language fluency** and **pedagogical training**, but a lifelong commitment to **equity, healing, and creativity in education**. I am ready to join a team that sees teachers as agents of care and innovation.

Thank you for considering my application. I would be honored to contribute to your institution and am open to interviews, lesson demonstrations, or collaboration discussions.

Warmest regards,

Wagner Figueiró França Junior

Teacher of English, Spanish and Portuguese
